[1] *High (Top priority), Medium (Middle priority), and Low (Lower priority). Based on public input and the results from Long-Term Recovery Plan community meetings in April 2023, post-meeting community input, outreach to Indian Valley elementary and high school students, and additional outreach at the May 20, 2023, Dixie Fire Collaborative Greenville Saturday community meeting. A total of 1,561 votes were gathered (i.e., 949 dots from the April 2023 community meetings and 612 from additional post-meeting outreach). The methodology for priority is the equal division of 27 project scores as calculated by community meeting dots and post-meeting results, by 3, so the top 9 projects by Priority rank were identified as High, the next 9 projects as Medium, and the next 9 as Low.*
